

Push dispatch management to the next level.

Verizon Dispatch Console for PTT+

Verizon Dispatch Console for Push to Talk Plus (PTT+) makes it easy and affordable to manage, locate and communicate with your mobile push-to-talk (PTT) workforce. With near-instant communication to individuals or a group of team members, it helps your dispatchers be more efficient. A push of a button lets you monitor or record group discussions. You can also quickly see the location of PTT users on the console's integrated live map.

Enjoy better dispatch management and workforce productivity.

Our Dispatch Console gives you the capabilities you need to simplify PTT+ dispatch management and improve workforce productivity.

- **Advanced PTT+ calling** – Make or receive one-to-one and group calls (up to 250 members).
- **Talk group monitoring** – Monitor talk activity on any set of talk groups you choose.
- **GPS locator** – Quickly locate team members with integrated GPS and live map. You can also click on map markers to initiate PTT+ calls.
- **Broadcast calls** – Place one-way preemptive calls to up to 500 members (coming soon).
- **Talk group scanning and prioritization** – Scan for any active discussions and prioritize specific talk groups (coming soon).
- **Discussions recording** – Automatically record every call joined by the dispatcher or record on demand.

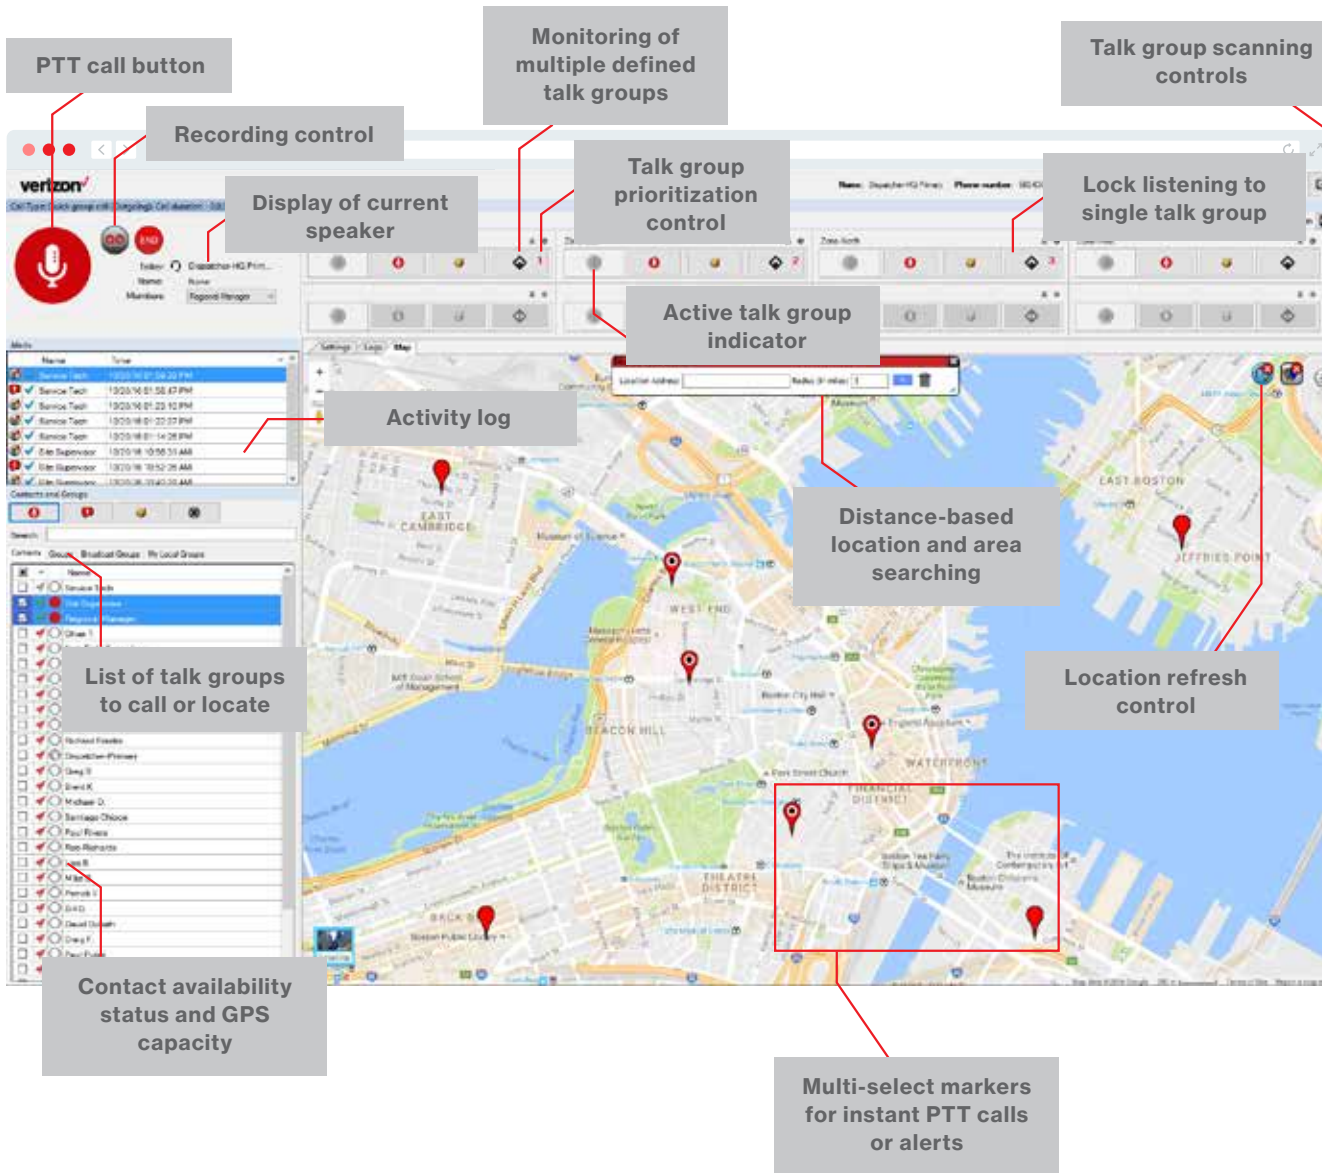

Easily locate, manage and communicate with your mobile PTT+ workforce.

Flexible installation

You can choose from the following console installation options:

- **System wide** – Allows any dispatcher to use any available console station
- **User based** – Assigns a specific console station to a specific dispatcher

System requirements

- Microsoft® Windows® 10
